
March 2022
New Bee Poll
322 St. George St
Toronto, ON
M3E 4G6

Dear interviewee :

The purpose of the survey was to understand the relationship between family characteristics and economic status. Your input is critical to evaluating improvements to the federal system.

To access the online survey, share your opinion on the topic using the URL below. This process takes about 5-8 minutes. New Bee is an independent contractor that collects data for analytical purposes. The results of the survey will only be shared with the necessary people in a secure and anonymous manner.

Sincerely,

New Bee, on behalf of the Government of Canada.

Find out the relationship between household income and household characteristics in C

Find out the relationship between household income and household characteristics in Canada

In a country with a complex population like Canada, the overall household income is closely related to family characteristics. However, the aim of this survey was to better understand the causal link between the two.

By completing this form, you acknowledge and agree that the use of your answers contributes to a better understanding of the link between family income and family characteristics in Canada. The original sponsor of this survey will not ask you to provide identifiable information or use your data for non-
